## Section 4: FIRST AID MEASURES

<b>Description of Necessary First Aid Measures:</b>	<p>In case of poisoning by any exposure route get to a doctor or hospital quickly. Phone Poisons Information Centre on 131 126.</p> <p>Have the product label or SDS with you when calling or going for treatment.</p> <p><b>Swallowed:</b> If swallowed, seek medical advice immediately and show this container or label. Do not induce vomiting.</p> <p><b>Eye:</b> Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.</p> <p><b>Skin:</b> Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.</p> <p><b>Inhaled:</b> Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or Poison Control Centre immediately.</p>
<b>Poisoning Symptoms:</b>	<p>Symptoms that may arise if the product is mishandled and overexposure occurs are nausea, vomiting, diarrhoea, abdominal pain, ataxia, unsteady gait, hyperexcitability, salivation, tremors and incontinence. Larger doses may cause convulsions and loss of consciousness. If the victim is uncoordinated there is a greater likelihood of vomit entering the lungs and causing subsequent complications. Contact with the skin may result in irritation. Will have a degreasing action on the skin. Repeated or prolonged skin contact may lead to irritant contact dermatitis. May cause tingling, burning, itching or numbness in exposed areas which can last up to 36 hours. Lambda-cyhalothrin can be absorbed through the skin. Effects can include those described above</p>
<b>Medical Advice:</b>	<p>If the amount of chemical is judged to be less than a lethal dose, observe the patient and treat symptomatically. If gastric lavage is considered necessary, prevent aspiration of gastric material. Consider administration of activated charcoal and a laxative.</p>

## Section 5: FIRE FIGHTING MEASURES

<b>Suitable Extinguishing Media:</b>	<p>Extinguishing media - small fires Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide extinguisher. DO NOT use direct jet of water.</p> <p>Extinguishing media - large fires Use alcohol-resistant foam or water spray. DO NOT use direct jet of water.</p>
<b>Hazards from Combustion Products:</b>	<p>This product contains combustible organic components that may burn and decompose during a fire producing dense black smoke containing hazardous products of combustion. Combustion products are toxic and /or irritant. Exposure to decomposition products may be a hazard to health</p>
<b>Special Protective Precautions and Equipment for Fire Fighters:</b>	<p>When fighting a major fire wear self-contained breathing apparatus and protective equipment</p>

## Section 6: ACCIDENTAL RELEASE MEASURES

<b>Emergency Procedures:</b>	Ensure suitable personal protection during removal of spillages. This means wearing eye protection, chemically resistant gloves, boots and overalls
<b>Methods and Materials for Containment and Clean Up:</b>	<ol style="list-style-type: none"> <li>(1) Keep all bystanders away.</li> <li>(2) Wear goggles, half face-piece respirator with combined dust and vapour cartridge, full-length clothing and PVC gloves.</li> <li>(3) Reposition any leaking containers so as to minimise further leakage.</li> <li>(4) Dam and absorb spill with an absorbent material (e.g. sand or soil).</li> <li>(5) Shovel the absorbed spill into drums.</li> <li>(6) Decontaminate the spill area with detergent and water and rinse with the smallest volume of water practicable.</li> </ol>

## Section 7: HANDLING AND STORAGE

<b>Precautions for Safe Handling:</b>	<p>Will irritate the eyes, nose, throat and skin. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes and skin. When preparing the spray and using the prepared spray wear:</p> <ul style="list-style-type: none"> <li>• cotton overalls buttoned to the neck and wrist,</li> <li>• a washable hat and</li> <li>• elbow-length PVC gloves.</li> </ul> <p>If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use wash gloves and contaminated clothing</p>
<b>Conditions for Safe Storage:</b>	Store in the closed original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

## Section 11: TOXICOLOGICAL INFORMATION

<b>Health Effects from Likely Routes of Exposure:</b>	
<b>Acute:</b>	<p><b>Swallowing: LOW TOXICITY</b> Tests on rats indicate a low toxicity following single doses of a similar formulation (LD<sub>50</sub> Rat, &gt;5000 mg/kg)</p> <p><b>Skin contact: LOW TOXICITY</b> Tests on rats indicate a low toxicity due to skin contact with a similar formulation (LD<sub>50</sub> &gt; 4000 mg/kg)</p> <p><b>NOT IRRITANT</b> (rabbits)</p> <p><b>SENSITISING</b> (rabbits)</p> <p>In humans may cause tingling or numbness in exposed areas (paraesthesia). This effect is transient, lasting up to 24 hours.</p> <p><b>Eye contact: SLIGHT IRRITANT</b> (rabbits)</p> <p><b>Inhalation: LOW TOXICITY</b> LC<sub>50</sub> (4hour) &gt; 4.62 mg/l 4 hours</p>
<b>Chronic :</b>	<b>Lambda-cyhalothrin technical</b> has been extensively tested in mammals and in test-tube systems. No evidence of mutagenic, carcinogenic, neurotoxic or teratogenic effects was obtained. A three-generation reproductive study in rats revealed minor reproductive effects at the highest dose only (100 mg/kg) (reduction in litter size and weight gain

only)

## Section 12: ECOLOGICAL INFORMATION

<b>Ecotoxicity:</b>	<p><b>Very Toxic to fish:</b> Rainbow Trout, <i>Oncorhynchus mykiss</i> , LC<sub>50</sub> (96 h) = 0.44 µg/L Sheephead minnow LC<sub>50</sub> (96 h) = 0.81 µg/L Bluegill Sunfish, LC<sub>50</sub> (96 h) = 0.21 µg/L</p> <p><b>Moderately toxic to algae:</b> EC50 (96h) <i>Selenastrum capricornutum</i> &gt; 1000 µg/L</p> <p><b>Very Toxic to aquatic invertebrates:</b> Water Flea, <i>Daphnia magna</i>, LC<sub>50</sub> (48 h) = 0.36 µg/L</p> <p><b>Practically non-toxic to soil dwelling organisms:</b> LC50 Earthworm - &gt; 1000 mg/L</p> <p><b>Very Toxic to bees</b> oral LD<sub>50</sub> = 38 ng/bee, contact LD<sub>50</sub> = 909 ng/bee</p>
<b>Persistence and Degradability:</b>	There is evidence of rapid biodegradation in soil and water
<b>Mobility</b>	Lambda-cyhalothrin has low mobility in soil.
<b>Environmental Fate (Exposure):</b>	Fully degraded and incorporated into organic molecules
<b>Bioaccumulative Potential:</b>	Lambda-cyhalothrin has high potential for bioaccumulation. It is rapidly metabolised and excreted.

## Section 13: DISPOSAL CONSIDERATIONS

<b>Disposal Methods and Containers:</b>	<p>Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.</p> <p>If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.</p>
